

PEP

PRECISION
ENGINEERING
PLASTICS LTD

Ministry of Defence

PEP has more than a decade of experience in the production and supply of components to the UK and US defence markets.

As a result, we have a good understanding of the particular requirements of organisations involved in supplying the MoD.

Our services for the defence sector include:

- In-house tooling for speed and accuracy in product development and production
- Technical moulding in high-grade engineering polymers (PPS, PVDF, PEEK and more)
- Insert moulding for strength, reduced weight or integrated electrical contacts
- ISO/TS16949:2009 accreditation
- 2 shot moulding
- Conductive coatings
- Plastic machining
- RFI shielding
- Pad printing
- Assembly & testing

Chemical warfare detection unit, incorporating insert moulding (magnet), RFI shielding, over-moulded seal and assembly.
